

THE UK'S FIRST **CLASS A** FIRE-RATED EXTERNAL DECKING AND PAVING SYSTEM-REIF DURALINK[®]

Alfresco Floors REIF DuraLink[®] Class A fire-rated system is a fully adjustable Aluminium decking and paving solution that is precise, durable and fully adaptable.

The REIF DuraLink[®] product specification complies with new UK Building Regulations on fire safety and aluminium decking offers the perfect combination of strength, endurance, durability and corrosion-resistance. It also benefits from a life-cycle measured in decades.

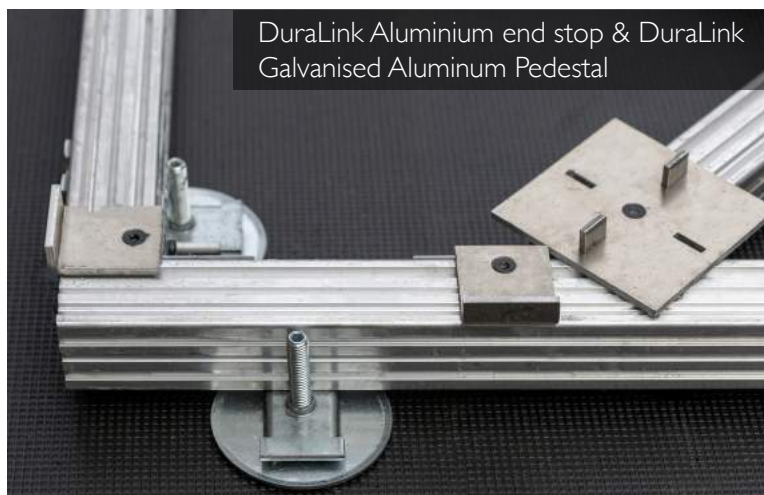

Key Features and Benefits

- | | | |
|----------------------------|-----------------------------|---------------------------------|
| Low density and low weight | High strength | Superior design capability |
| Corrosion resistance | Excellent thermal qualities | Sustainable and easy to recycle |

Very low build up possibilities starting from 40mm

We can also supply Class A2 rated decking and external porcelain and concrete pavers.
