

<b>Height Adjustment Range</b>	124-234mm
<b>Component Parts</b>	1 x Q5 (screw & base) Head supplied separately
<b>Head</b>	Diameter Ø 130 mm Decking: requires Queen Joist Cradle Paving: requires Queen Head with Tabs – 2, 3 or 4mm. This head type features an integrated black rubber pad for noise protection & anti-slip
<b>Base</b>	Diameter Ø 205 mm Drainage holes Membrane friendly Pre-cut grooves for easy cutting if required
<b>Slope Correction</b>	Not included as standard The Queen Plus accessory provides up to 5% slope correction & adds 7mm to the height of the pedestal
<b>Laying Specifications</b>	The pedestals do not require mechanical fixings or adhesives, & can be placed directly on top of the substrate
<b>Field of Application</b>	On any waterproofing membrane On any rigid insulation panel On any solid & compact laying surface
<b>Raw Materials</b>	20% Talc & 80% Polypropylene (100% recycled)
<b>Environmental Impact</b>	Recycled & reusable – non-hazardous materials
<b>Warranty</b>	25 years
<b>Service Life</b>	50 years
<b>Origin</b>	Designed & manufactured in Italy

**Q5**

1 x Q5

**Base**

Ø 205 mm

## Mechanical Tests - Compression testing after accelerated ageing

<b>Q5 - Fixed</b>	<b>11,663.9 N</b>	<b>1,189.4 KG</b>
<b>Q5 with Queen Plus - Tilting</b>	<b>12,344.8 N</b>	<b>1,258.8 KG</b>

## Chemical Tests

Chemical tests have shown that the material used (Polypropylene) has excellent physical resistance & dimensional stability.

- De-icing salts
- Pool water with chlorine
- Frost-defrost
